

Ask your Doctor How Physicians Wellness Products Can Change Your Life!

Nutritional Supplements made with the highest quality!

Physicians Wellness Products is dedicated to bridging the gap between traditional health care and the wellness industry by providing physicians the latest research and resources from top academic institutions and organizations from around the world. Physicians Wellness Products is a premier group of highly selected, forward thinking physicians and scientists who understand the importance and need for preventive medicine and total wellness.

There has been no greater mission than that of assuring each supplement produced is of the highest quality. Because our supplements are developed specifically for exclusive distribution by doctors, only the finest pharmaceutical and organic raw materials are used and manufactured under the strictest guidelines.

Science-Based Nutrition

Ask your doctor how
Physicians Wellness Products
can change your Life!

Nutritional Supplements made with the highest quality,
all Organic and Pharmaceutical Grade Ingredients.

Physicians Wellness Products choose to ensure your complete nutritional needs.

Physicians Wellness Products has a passion for good health and nutrition, and we're committed to improving the quality of life for every individual. It is this passion and commitment that has kept us at the forefront of the nutrition and wellness industry. Physicians Wellness Products extensively researched many product lines and manufacturers from around the world. We had to make sure we were recommending the best line of nutritional supplementation products available.

Our products are science-based and system specific covering the areas of Men's Health, Women's Health, Preventive Nutrition, Diet-Weight Loss and Sports and Fitness. We have many different products that cover a host of nutritional needs. We use only ingredients that are shown in peer reviewed scientific literature to be effective to help prevent a given condition.

All Supplements are Not Equal!

Physicians Wellness Products applies science and research to the growth, development, and formulation of natural nutritional products that can help men, women, and children to live healthier and happier lives. Our research strives to support the manufacture of natural products that will help handle various health problems while helping increase your quality of life through better nutrition. It is often found that many dietary supplements in the market today contain so little quantities of ingredients that they are truly questionable whether they would produce any effect. The nutritional supplement industry is not regulated; therefore, the dietary supplements available in stores may vary significantly regarding quality and efficacy. That means that the supplements available in the market may not contain ingredients in the quantity and potency required to produce the stated effects. In other cases, the supplement includes herbs, or minerals that absolutely have nothing to do with the intended effect. Physicians Wellness Products adheres to self-imposed standards for exceeding that of the general marketplace. These standards are patterned off the FDA regulation of pharmaceutical products.

Our products have been formulated to provide more than just an "insurance policy" against nutrient deficiency.

Today the number one cause for personal bankruptcy is sky rocketing healthcare expenses, i.e. rapidly rising costs of treating illness and disease. Evidenced based nutritional supplementation in conjunction with sensible diet and exercise is very important in helping prevent many illnesses and chronic diseases (see list below). The diets of most people do not provide sufficient quantities of vital nutrients that the human body needs to function efficiently and avert many infections and serious diseases.

Our product development team has unleashed the power of the finest raw material ingredients and the best manufacturing standards. These supplements provide your organ systems with not just the recommended daily values of multivitamins and minerals, but with the optimal doses and bioavailability essential to enjoy true wellness while reducing the risk of many chronic illnesses.

Largely Preventable Conditions:

- 64% of U.S. Adults are OVERWEIGHT
- 1/3 of U.S. Adults are CLINICALLY OBESE
- 20% of U.S. youth are CLINICALLY OBESE
- 1/3 of adults have OSTEOPOROSIS
- 1/3 of US population will die from HEART DISEASE
- 1/3 of US population will die from CANCER
- Up to 30% of U.S. children are OVERWEIGHT
- 80 - 90% of people that develop Type 2 Diabetes are OVERWEIGHT

Physicians Wellness Products was established to address the problems presented above.

Men's Health

Men have health and well-being issues that are far different from those of women. Nature has so much to offer men plagued by such physical problems as prostate inflammation, impotence, and infertility. Weight is also often a major problem. It is now estimated that one out of five men will have a heart attack by age 60, and their excess pounds, poor eating habits, stress, and lack of exercise are all contributing factors.

MEN'S COMPREHENSIVE FORMULA

Men's Comprehensive Formula is synergistically formulated to support the energy, endurance and supreme wellness demands necessitated by the lifestyle today's man enjoys. Essential vitamin nutrients in this comprehensive daily supplement include vitamins A, C, D, E, the B-complex vitamins, thiamin, niacin, pantothenic acid, B-6, B-12 and folate, beta-carotene and more. Also included are herbs that specifically address a man's needs including saw palmetto (prostate), ginkgo biloba (blood circulation) and the amino acid arginine. Don't let the pressures of everyday living weaken you. Help make sure your mind, body and spirit are operating at peak efficiency by taking Men's Formula every day.

PROSTATE PLUS

This is by far one of the most complete and comprehensive products available anywhere for the life-long support of prostate health. As men mature it is important to focus on their prostate health. Paying extra attention to their diet is one very important step for men to take. They should especially avoid extra saturated fats and eat a plentiful supply of colorful fruits and vegetables. A healthy prostate can also be supported by adding the high-quality nutritional support contained in Prostate Formula. The high-quality extracts from Saw Palmetto berries and Pygeum are included for their legendary activity in sustaining healthy prostate and sexual function. The lipid fraction of pumpkin seeds is a rich source of beta-sitosterol, which in its purified form also supports prostate health.

Why be less than your best?

Preventive Nutrition

Our products have always centered on prevention. "Doctors love recommending our products because of the results they see in their patients. Their patients start enjoying active, healthy lives." Medical professionals have analyzed the rising cost of health care and have realized the solution lies in the practice of preventive care. A recent study by Trust for American's Health found prevention programs that encourage physical activity, nutrition, and smoking prevention can lead to reductions in type 2 diabetes, high blood pressure, heart disease, kidney disease, stroke, and arthritis in the next few years.

Daily consumption of a high-quality fish oil supplement allows you to benefit from nature's generosity without suffering from man's folly.

OMEGA EPA/DHA PLUS

Omega EPA/DHA Plus is a highly purified pharmaceutical-grade nutrient that is scientifically formulated to promote mood elevation, cardiac health, joint health, cognitive clarity, improved digestion and emotional well-being. Only Omega EPA/DHA Plus provides a high concentration of 60% EPA for maximum benefit to the body's normal inflammatory response. Free of dangerous toxins and clinically tested to surpass all international standards for freshness and purity. Omega EPA/DHA Plus has three times the EPA and DHA potency of health food grade fish oil. This high concentration and optimal EPA to DHA blend is enhanced with natural lemon oil in a soft gel capsule for great lemon taste. The ratio of EPA to DHA is 3.3 to 1... a balance many experts believe is optimal for good health.

JOINT EASE

Joint Ease has been specifically designed, as a supplement to provide the additional nutrients required aiding the maintenance and effective repair of joints. Glucosamine is a pre-cursor for the synthesis of cartilage. Methyl sulphanyl methane (MSM) has an optimal chemical structure for absorption and subsequent utilization in the formation of collagen, which is the primary component of cartilage and connective tissue. It has additional benefits of facilitating muscle recovery after maximum activity.

Physicians Wellness Weight Loss System

The Physicians Wellness Weight Loss System can help jump start your weight loss regimen safely and effectively. Used together these products provide a thorough and well-rounded weight loss program when combined with diet and exercise.

This system is designed to control your appetite and cravings. It will also help convert food substances such as proteins, fats and carbohydrates into energy.

Treat your body to good nutrition and lose weight with the help of these high quality physician formulated products.

BIOTRIM

BioTrim is a dietary supplement designed to reduce body fat and improve metabolism by enhancing energy production through several of the body's metabolic pathways. Proven exceptionally effective in jump-starting and maintaining energy levels naturally, BioTrim has a proprietary synergistic blend of natural herbal extracts and pharmaceutical grade amino acids that promote a multi-faceted approach to fat loss.

CARB BLOCKER

Carb Blocker contains two dynamic and powerful ingredients that synergistically reduce the storage of new fat and maintain healthy blood glucose levels to assist in weight loss. Carb Blocker also helps to reduce the rate of lipogenesis and assist in maintaining healthy blood sugar levels, especially when used in conjunction with BioTrim and Natural Appetite Control. These potent ingredients combine to help discourage accumulation of body fat, as well as to produce an appetite suppressant effect that can contribute to weight loss.

NATURAL APPETITE CONTROL (STIMULANT FREE)

A natural plant extract discovered in Europe has been found to dramatically suppress appetite without stimulatory effects. This not only helps the body digest fats better, but also sends a feeling of satiety or 'fullness' to the brain, decreasing the desire to eat and helping to control excessive calories.

Women's Health

Women have special needs and are affected by a higher incidence of osteoporosis, anxiety, depression, and other gender-related problems. For example, osteoporosis primarily affects females because of the nutritional and hormonal differences between men and women. Half of all women between the ages of forty-five and seventy-five show signs or some degree of osteoporosis. Calcium is very important in dealing with osteoporosis. Today there are tremendous resources available from nature.

Half of all women between the ages of 45 and 75 show signs or some degree of osteoporosis

WOMEN'S COMPREHENSIVE FORMULA

Women's Comprehensive Formula is a vitamin and herbal supplement specifically formulated for women's health. It is an ultra-potent multi-vitamin/mineral complex that provides a nutritional foundation to meet the unique physiologic needs of women today. This formula also has added levels of anti-oxidants to boost the immune system.

BONE RESTORE

Bone Restore holds a unique blend of minerals, vitamins, and phytonutrients that supports bone health through all phases of life. Along with our premium calcium blend, we have included ipriflavone, a leading-edge nutrient only recently available, which promotes the healthy process of incorporating calcium into bone. Also included in our proprietary blend is folic acid, minerals, vitamin B-12, and a special metabolite of vitamin B-6, which all support healthy calcium and bone metabolism.

PRENATAL HEALTH

Prenatal Health's blend of ginger extract, iron, choline and folate form the basis of this formulation's support of fetal cognitive development and the mother's overall health during and after pregnancy. This premium supplement is to be taken before pregnancy to remedy the deficiencies in the diet and to prepare the body for the baby's needs.
